READING AN NFO LIST

- An NFO is not cheaper because units are ₹10. What matters is what the fund will own and what it costs.
- Many launches are index funds and ETFs that track an index other funds already track. Ask what is genuinely new.
- Each scheme's SID, KIM and presentation are linked on its page at merasip.com/funds/nfo.

HOW TO INVEST THROUGH TRUSTNER

1. Open the scheme at **merasip.com/funds/nfo** and tap "Request to invest", or WhatsApp 60039 03737.
2. Our team checks your KYC and sends a transaction link for the Regular plan. You approve it; money goes straight to the fund house.
